

# Non-Admitted vs. Admitted: Quarterly Financial Comparison of Texas Insurers

The charts below compare data from AM Best of over 1,000 admitted and nearly 200 non-admitted insurers. The data includes only US-domiciled insurance companies with a status of either admitted or non-admitted, as designated by the state of Texas. Non-US domiciled insurers do not report data to A.M. Best and are not represented in this graphic.

- Individual company summaries for non-admitted insurers can be found on our website through the [Eligible Insurers](#) page.
